

**Public Health Association
of Australia**
NSW Branch

Morris Iemma MP
Premier, Minister for State Development, and Minister for Citizenship
Level 40 Governor Macquarie Tower,
1 Farrer Place,
SYDNEY NSW 2000

9 March 2007

Dear Mr Iemma

The NSW Branch of the Public Health Association of Australia (PHAA NSW) would like to bring to your attention the enclosed proposals prepared by the Council of Social Service of NSW (NCOSS). PHAA NSW strongly supports these proposals, which provide real opportunities for action by the government in collaboration with the business sector, non-governmental organisations and the community. They will result in improved health, social and economic outcomes for those people, families and communities that are living on the wrong side of the social and economic divide.

When elected, the incoming State Government should give serious consideration of these matters in the interest of the health of the population and social justice.

Yours sincerely

Dr Bradley Forssman
Secretary
Public Health Association, NSW Branch
